Tiger 800 ABS (MY 13)**\$10,999.00 †**

PRODUCT INFO

OVERVIEW

We've combined a cracking Triumph three-cylinder engine and a rugged chassis to bring you the toughness, everyday practicality and outstanding touring credentials of the Tiger 800.

The engine is designed to give you smooth, accessible torque when you need it. And the strong steel frame and long travel suspension are built, not just to survive, but excite on road or trail.

We built the Tiger 800 for a purpose, and that's what gives it its style.

There are no side panels. Just essential covers and a screen for a look that reflects how this bike should be used. With minimum painted surfaces - just the fuel tank and front mudguard - the Tiger 800 can take knocks and spills and still look good.

And with its purpose-made luggage, extended fuel range and spacious riding position you get a bike with a thirst for long distance riding.

ENGINE

Performance

The three-cylinder engine is purpose made for its all-rounder, adventure role.

The 800cc, fuel-injected powerplant makes a strong 95PS and peak torque of 79Nm, but just as important, it's muscular and willing right across its rev range to give you drive and urgency when you need it without having to work the gearbox first.

The engine communicates and stirs, inspiring rides for the sake of riding, as only a three-cylinder can, then delivers the kind of performance that makes it absolutely ideal for its role.

Transmission

The transmission is just as tough and dependable as the rest of the Tiger 800, yet the clutch action is light and predictable. Giving you a bike that's useable in off-road situations or just riding in heavy traffic. Changing gears through the six-speed gearbox is smooth and reliable too, and thanks to the generous spread of engine torque, you get a wide spread of ratios to suit all kinds of riding conditions. The chain final drive is ideal for the best off-road suspension performance and even lets you change the overall gearing if you want.

High level silencer

At its core is the Triumph signature three-cylinder engine with its triple down pipes tucking tightly into one that flows back and up to the high level silencer.

Fuel efficiency

All our expertise in the design of high efficiency engines has gone into this engine to give you just under 50mpg in urban riding, 75.3mpg at a steady 56mph and 74.3mpg at a steady 75mph.

Combine that with a 19 litre tank and you have range of more than 200 miles even at 75mph.

ENGINE	
TYPE	Liquid-cooled, 12 valve, DOHC, in-line three-cylinder
CAPACITY	800cc
BORE	74.0mm
STROKE	61.9mm
SYSTEM	Multipoint sequential electronic fuel injection
EXHAUST	Stainless steel 3 into 1, high level stainless steel silencer
FINAL DRIVE	O-Ring-Chain
CLUTCH	Wet, Multi Plate
GEARBOX	6-Speed
OIL CAPACITY	1.0US Gallon

CHASSIS

Frame

The backbone of the Tiger 800's chassis is its tubular steel trellis frame recognisable by the twin tubes running down each side of the engine. And we made the girder-like rear subframe super strong to cope with heavy touring loads. The engine is important here too, engineered as a fully stressed and crucial component of the chassis, adding strength so the frame can be lighter for better agility.

Suspension

We never stop honing suspension until we get it just right. And the Tiger 800 is no exception. So at the front there are 43mm inverted forks, carefully matched to the single rear unit and aluminium, twin-sided swingarm that together offer enough travel for off-road use. As well as that, with such effective damping the bike is plush and controlled on the road too. You can even adjust the rear spring preload hydraulically to deal with any load you need.

Brakes

We gave the Tiger 800 two-piston sliding callipers at the front and 308mm floating discs that give you enough stopping force on the road but won't be too fierce in slippery off-road riding.

Wheels

We fit cast aluminium, 17 inches at the rear and 19 inches at the front to suit a wide selection of tyres.

Riding position

The upright and spacious riding position of the Tiger 800 works just about anywhere. It's comfortable enough for you to spend hours in the saddle touring. Around town it helps you see ahead over cars and other obstacles. And off road it gives you perfect control.

Adjustable seat height

You can adjust the seat height without tools between 810mm and 830mm for better access for shorter riders or just to suit different kinds of riding.

Your passenger is well looked after too with a comfy riding position and supportive seat with large grab handles.

Handlebars

The aluminium handlebars can also be adjusted fore and aft and the handlebar levers are span-adjustable.

CHASSIS	
FRAME	Tubular steel trellis frame
SWINGARM	Twin-sided, cast aluminium alloy
FRONT WHEELS	Cast aluminium alloy 10-spoke 19 x 2.5in
REAR WHEELS	Cast aluminium alloy 10-spoke 17 x 4.25in
FRONT TIRES	100/90 ZR 19
REAR TIRES	150/70 ZR 17
FRONT SUSPENSION	Showa 43mm upside down forks, 180mm travel
REAR SUSPENSION	Showa monoshock with hydraulically adjustable preload, 170mm rear wheel travel
BRAKES FRONT	Twin 308mm floating discs, Nissin 2-piston floating calipers, (ABS model available)
BRAKES REAR	Single 255mm disc, Nissin single piston floating caliper, (ABS model available)
INSTRUMENT DISPLAY AND FUNCTIONS	LCD multi-functional instrument pack with digital speedometer, trip computer, analogue tachometer, gear position indicator, fuel gauge, TPMS ready, service indicator, switchable ABS and clock

PERFORMANCE

MAX POWER EC 95 9300

MAX TORQUE EC 79 7850

ACCESSORIES	DESCRIPTION	PRICE
	Adventure Hard Bags - USA (A9508143) Bespoke Triumph luggage system featuring high security "one key" locking mechanism, branded brushed aluminium lid cover and fully weatherproof construction for the ultimate in adventure luggage. Full floating mounting assembly ensures performance levels are not compromised even when fully loaded. Provides 35 litres of luggage carrying capacity (can accommodate one full face helmet).	POA
	Triumph Battery Optimiser (A9930412) Automatic Battery Optimiser for lead acid batteries.	MSRP \$80.00
	Triumph Battery Optimiser (A9930413) Automatic Battery Optimiser for lead acid batteries.	MSRP \$60.00
	Adventure Panniers (A9508184) Bespoke Triumph luggage system featuring "one key" locking mechanism. Twin skin injection moulded construction, with branded brushed aluminium fascia and fully weatherproof construction for the ultimate in adventure luggage. Dynamic mounting assembly ensures performance levels are not compromised even when fully loaded. Side opening, offering 62 litres of luggage carrying capacity (can accommodate one full face helmet). Requires Adventure Pannier Fitting Kit: Tiger 800 Fitting Kit A9508186 Tiger Explorer Fitting Kit A9508185	MSRP \$800.00
	City Tank Bag Kit 16 litres (A9510087) Bespoke expandable city tank bag offering convenient storage of up to 16 litres designed to be installed with tank bag harness, A9510083. Manufactured using the latest manufacturing techniques from polyurethane and highly durable fabrics, this new bespoke luggage features Triumph branded zip pulls, reversed zip tracks, fully lined base and lid and come complete with detachable map pocket.	MSRP \$135.00
	Adventure Tail Bag (A9510170) Bespoke adventure tail bag offering a huge 50 litre capacity. Manufactured from polyurethane and high quality fabrics using the latest techniques, this new luggage features Triumph branded zip pulls, reversed zip tracks, fully lined base and comes complete with detachable mounting straps. Can be mounted to passenger seat area or integral luggage rack.	MSRP \$235.00
	Adventure Tank Bag Kit 20 litres (A9510088) Offering substantial capacity (16 Litres expandable to 20 Litres) for stowing the essentials. Installation is via the separate tank bag harness (A9510083) which has been designed to look good when the bag is removed. Manufactured using the latest techniques from polyurethane and highly durable fabrics, this new bespoke luggage features Triumph branded zip pulls, reversed zip tracks, fully lined base and lid and comes complete with detachable map pocket.	MSRP \$175.00
	Top box - Adventure (T2350294) Bespoke Triumph luggage system featuring high security one key locking mechanism. Twin skin injection moulded construction, with branded brushed aluminium fascia, and fully weatherproof construction for the ultimate in adventure luggage. Dynamic mounting assembly ensures performance levels are not compromised even when fully loaded. Provides 35 litres of luggage carrying capacity (can accommodate one full face helmet). Requires sliding carriage A9508148 for fitment.	MSRP \$465.00

ACCESSORIES	DESCRIPTION	PRICE
	<p>City Tail Pack Kit 10 litres (A9510086)</p> <p>Bespoke city tail pack offering up to 10 litres of convenient storage. Manufactured from polyurethane and highly durable fabrics using the latest techniques, this new bespoke luggage features Triumph branded zip pulls, reversed zip tracks, fully lined base and lid and comes complete with detachable mounting straps. Fitment is either to passenger seat pad or the integral luggage rack.</p>	<p>MSRP \$100.00</p>
	<p>Tank Bag Harness (A9510083)</p> <p>Fully moulded tank bag harness designed to allow convenient installation of the City and Adventure tank bags. Features robust nylon mounting clips with magnetic receptacle.</p>	<p>MSRP \$50.00</p>
	<p>Waterproof Roll Bag 40 litres (A9511051)</p> <p>Fully waterproof Triumph Roll Bag offering up to 40 Litres of carrying capacity, featuring roll top sealing with robust nylon clips, welded seams throughout and Triumph branding. Twin dual purpose carry handles double as compression straps when in use. The Roll Bag also features a padded shoulder strap. Mounting is directly to the passenger seat.</p>	<p>MSRP \$120.00</p>
	<p>Top Box Sliding Carriage Kit - Adventure (A9508148)</p> <p>Bespoke, Triumph sliding carriage kit designed to allow installation of the Adventure top box. Allows lateral movement of the top box assembly to ensure handling is not effected even when fully loaded.</p>	<p>MSRP \$225.00</p>
	<p>CNC Machined Oil Filler Cap - Red (A9610210)</p> <p>CNC Machined replacement Oil Filler Cap in anodised red finish Tri Corner design with pre-drilled holes to facilitate lock wiring.</p>	<p>MSRP \$25.00</p>
	<p>Billet Machined Chain Adjuster Block - Red (A9640046)</p> <p>Machined and anodised replacement for OE part offered for fitment to the Triumph Roadsters, Street Triple and Daytona 675 or our Adventure and Touring favourite, Tiger 800.</p>	<p>MSRP \$35.00</p>
	<p>Paddock Stand Bobbins (A9640023)</p> <p>Triumph nylon paddock stand bobbins designed specifically for your Triumph Motorcycle Tiger 800.</p>	<p>MSRP \$35.00</p>
	<p>Swing Arm Pivot Covers, Black (A9780020)</p> <p>Pair of CNC machined black anodised aluminium swing arm pivot covers.</p>	<p>MSRP \$25.00</p>
	<p>Oil Filter Cover - Black (T1210245)</p> <p>The Triumph Oil filter cover is a durable powder coated steel oil filter cover to provide additional protection from stones and debris when on-trail. Simple push fit installation for ease of use. Can be installed in conjunction with the Triumph Aluminium Sump Guard.</p>	<p>MSRP \$35.00</p>
	<p>CNC Machined Rear Brake Reservoir (T2025065)</p> <p>Replacement CNC Machined Rear Brake Reservoir in anodised black finish. Features machined detailing to base and lid, laser etched branding and integral sight glass.</p>	<p>MSRP \$85.00</p>

ACCESSORIES	DESCRIPTION		PRICE
	<p>Footpeg Rubber Kit (A9778017)</p>	<p>Revised footpeg rubbers designed to lower foot position by 12.5mm</p>	<p>MSRP \$25.00</p>
	<p>Tapered Black Handlebar (T2041147)</p>	<p>Oversize Tapered Aluminium Handlebar, anodised in black with Laser etched Triumph Logo. Offered for Tiger 800 only.</p>	<p>MSRP \$120.00</p>
	<p>Adjustable Clutch Lever (A9638067)</p>	<p>Genuine Triumph adjustable clutch lever offered as an accessory for Daytona 675, Street Triple, Street Triple R & Tiger 800, gives riders the option to select one of four alternative lever positions.</p>	<p>MSRP \$50.00</p>
